Graph type

Coverage

The graph displays code coverage metrics over time. The Y-axis represents the number of lines, ranging from 0 to 600. The X-axis shows time intervals from 08:30 to 11:30. The 'Lines to Cover' (solid blue line) starts at approximately 520 and rises to about 580. The 'Covered Lines' (dashed red line) starts at 0 and increases to approximately 220. The 'New Code' (light purple shaded area) represents the difference between the two, starting at 0 and increasing to about 360. A legend at the top right identifies the lines and the shaded area.

Time	Lines to Cover	Covered Lines	New Code
08:30	520	0	520
09:00	520	0	520
09:30	520	0	520
10:00	520	0	520
10:30	520	0	520
11:00	550	100	450
11:30	580	220	360
